Practice Management. Handled.

Open Dental Software is powerful and affordable Practice Management Software for any size practice. We streamline practice management so you can focus on patient care.

Why Choose Open Dental?

- Powerful, comprehensive, and affordable practice management software, customizable to suit any practice size.
- Open source software. Users have full control of their data, while third party development adds even more features to an already robust software.
- Smooth transition from other software with an experienced conversion team.
- Online training tools include over 90 webinars and tutorials, and a complete online user manual. Affordable live online or on-site training options also available to get your staff up to speed quickly.
- Friendly, highly-trained technicians respond quickly to support needs.
- Online communities and forums for tips, tricks, and best practices from other Open Dental users.

Dental Whale Savings Network Member Preferred Provider

Testimonials and Reviews

Don't take our word for it. See what others are saying about Open Dental Practice Management Software.

"It is my assertion that if every dentist downloaded the trial version (of Open Dental) and got a test data conversion (both FREE) and actually TRIED it, the other PMS companies would ALL go out of business. It is that good. It is that much of a BETTER VALUE. It blows the others away."

- **Michael Barr, DDS on dentaltown.com**

"The customer service is amazing both in results and calming frantic staff. The ability to customize to any practice environment has caused me to recommend this DPMS to all of my dental consultant clients."

- **Lauren Bursell, Best Dental Help**

"Absolutely hands down the best dental software. I have used many others and truly can say it's my favorite."

- **Suzanne from Facebook reviews**

"Open Dental offers every feature you could want in a dental practice management software, at a fraction of the price compared to its competitors."

- **SoftwarePundit**
